or otherwise

The Canyon Chamber of Commerce has again put over a good thing for Canyon in getting the pens. That probably sounds like an easy job to most folks, but to those who have been thinking about moving the stock pens for the past twenty years, and getting no where, it sounds like a real job. The thanks of the people of Canyon go to the officers of the local organization who have struggled through a year's work—without pay—and put over, among other things, this big deal. Of course the new owners of the tract will make some money; they are entitled to make some money; and they should make money on the deal. But the fact remains that an eye-sore has been removed, and in the mind's eye of the city builders the tract will soon be dotted with substantial homes of happy Canyon people. It was a big job, gathering up the loose ends of that deal, and finally winding up the ball. Thanks, whole-hearted thanks to those who put over the deal.

The need of unity of thought in Canyon was found last week by the Rotary club to be the outstanding need of Canyon. There is no dissension among the people of Canyon. But the citizenship is not aggressive; not enough of the go-get spirit being manifested. It is said that no college town exists itself much; that there is too much matter of fact spirit in all college towns. Canyon has a fine record of doing things. Perhaps we have not exerted ourselves consistently, but gone too much by spurts. Perhaps there are some who believe that we have gone about as far as a little town may go, and that we may rest on the oars. There ought to be some occasion arise to make Canyon citizens mad in order to get up their fighting spirit. Some one ought to step on our toes, as h. s. is sure the town doesn't carry a chip on its shoulder. If Canyon citizens should decide, as a whole, to tear loose, and do something big, the job would be put over in a jiffy.

To cure this indifference, it was suggested that a monster meeting of all citizens be held. To make the attendance 100 percent would be a problem, but if such a happy thing could be secured, great good would result for the permanent welfare of Canyon. It is worthy of thought, and an honest effort. Perhaps the new directors of the Chamber of Commerce to be selected next Tuesday will be able to point the way.

Shopping early for Christmas is more of a reality this year than in the past, according to local merchants. It is only a month until Christmas, but not too early for a real campaign of Christmas buying. Business houses will greatly appreciate early shopping, as at this time stocks are complete, and sales people have the time to wait on the customers. Don't put off longer your Christmas shopping.

One week from today is Thanksgiving. Thanksgiving will bring the McMurry College Indians, now leaders of the T. I. A. A. If the Buffaloes succeed in whipping the Indians on Turkey Day, the conference championship will fall on the Buffalo shoulders. That is why the Buffalo followers are keyed to high pitch, and promise to scalp the Indians next Thursday.

A lot more fine letters have been received by the News regarding our big 52-page edition. For fear the people tire of reading the nice things said about the News, we refrain from publishing any this week. However, the News is only a reflection of Randall County. The big edition could not have been possible were there not a lot of good things to talk about. Had there not been so many successful people in Randall county to mention, there could not have been 52 pages. Whatever credit there is about the big edition goes to the good county of Randall, and its progressive people.

### Monster Bonfire to be Pulled Next Wednesday

In preparation for the Thanksgiving game, a monster bonfire is planned for next Wednesday night. Citizens are asked to place in the alleys all boxes which they wish to dispose of so that the students may gather it for the bonfire. It is desired that boxes which citizens wish to save be removed from the alleys.

## STOCK PENS WILL BE MOVED AND NEW ADDITION OPENED—GILVIN & BRYMER OWNERS OF THE TRACT

**Announcement Made This Week of Opening of New Addition With Lot Sale—Chamber of Commerce Closes Deal to Remove Stock Pens and Open Up New Addition.**

The Chamber of Commerce thru W. A. Warren, President, has closed the sale of the tract of land occupied by the stock pens to John B. Gilvin and W. H. Brymer of Amarillo. The deal was closed Saturday, and work was started at once by the Amarillo men planning for the development of the College Park Addition. Sale of lots will start within a short while.

To make this addition the show window of Canyon is the ambition of these men, stated Mr. Gilvin yesterday. The addition is on the highway, just west of the College, and is an ideal location for a home. Street grading will start at once, and the new owners hope that the Santa Fe will be able to remove its track and stockpens within a very short while.

The culmination of the deal for the removal of the stock pens closes a long period of agitation in the city. In the original deed by L. G. Conner to the railway, provision was made that should the Santa Fe ever use the land for other than railway purposes, then it would revert to the original owner. Several attempts have been made to remove the stock pens, but some obstacle always arose. The Santa Fe has been willing for a long while to release this tract, but at the same time demanded enough to pay for the removal of the stock pens to a more convenient location in the west part of town.

Chamber of Commerce officials are elated over the removal of the unsightly stock pens from within two blocks of the College. Local men had contracted to take over the tract, but it was felt by all of them that it was better that experienced real estate men should handle the addition.

It is very likely that Third and Second Avenues will be paved thru the addition at once, while city water, sewerage, gas and lights will be among the conveniences made available on the tract.

## Mrs. Nat G. Rollins Visited Here Tuesday

Mrs. Nat G. Rollins of Abilene, president of the Methodist Missionary conference, spent Tuesday here together with Mrs. E. E. Adams of Amarillo. Mrs. Rollins spoke at the chapel period of the College.

A luncheon was held at noon at the home economics dining room. Miss Mattie Mae Swisher was in charge of the program, and talks were made by Dr. R. P. Jarrett, H. S. Condon, Hubert Thompson, Mrs. A. W. Sternberg, Miss Richardson and Mrs. Rollins.

A reception was held at the Methodist church Tuesday afternoon attended by more than one hundred. Mrs. Rollins made a short talk at this time.

A. B. Duncan was in Amarillo on business yesterday afternoon.

## News Printed on Next Wednesday For Thanksgiving

On account of the Thanksgiving holiday next Thursday, the News will be published on Wednesday afternoon instead of Thursday morning.

All advertisers, correspondents and reporters are asked to cooperate in getting their copy into the News office one day earlier than usual in order that the News force may be able to enjoy the Thanksgiving holiday together with all the other business firms of Canyon.

## Mrs. Keiser and O. W. H. Cook are United in Marriage

A wedding of great prominence in the Panhandle which will be of general interest in social circles is that of Mrs. Daniel Brier Keiser and Mr. O. W. H. Cook of Amarillo, which took place Thursday afternoon at Roswell, New Mexico.

The bride and groom elect were accompanied to Roswell by Mr. and Mrs. H. K. Stanfield of Amarillo, Mrs. A. W. Hamill of Canyon and Mrs. R. S. Selway of San Diego, California.

Mrs. Cook was the widow of the late C. O. Keiser of Canyon, wealthy cattle raiser and horse fancier. He dealt extensively in pedigreed stock and was well known among the cattle raisers of the country.

Mr. Cook was a prominent banker, being cashier of the First National Bank until January 1st. He has been making his residence in Amarillo for the past several months.

After a tour of the southern states Mr. and Mrs. Cook will return to Amarillo, where they will make their home.

### TO GRAND LODGE

R. A. Warren will leave Friday morning to attend the Masonic Grand Lodge at Waco. He will visit his brothers at Levita, and will preach at the church where he was pastor for 16 years.

B. F. Oatis will attend the grand Lodges.

### MRS. PAGE RECOVERED

Mrs. Elizabeth Fry Page was able to be up town Tuesday for the first time since being burned at the Little House of Fellowship, as a result of falling on the gas stove when she was asphyxiated three weeks ago.

### BAPTIST SERVICES

Rev. B. F. Fronabarger will preach Sunday morning at the Baptist church. The pastor and President J. A. Hill are attending the Baptist State Convention at Beaumont.

The young people will have charge of the evening services.

## BOOK CLUB STUDIES SPECIMEN FROM CANYON

The Woman's Book Club held its meeting yesterday in the Education building of the College in order to have access to the geological specimens which have been collected by W. D. Mater.

The subject of the day's program was the geology of Texas and the Story of Texas' Mineral Wealth. Mrs. T. B. McCarter and Mrs. Burt Newlin furnished the program, their papers being supplemented by an informal discussion by Mr. Mater dealing with the geological specimens to be found in the Palo Duro Canyon.

This will be the last meeting of the club until the second Wednesday in December.

### AS YOU LIKE IT CLUB

Mrs. Dan K. Usery was hostess to the As You Like It Club last Thursday afternoon at her home. Other guests were Mrs. J. M. Daugherty, Mrs. W. C. Ransom, and Mrs. Travis Shaw. A sandwich plate lunch was served.

### WESTMINSTER GUILD

The Westminster Guild of the Presbyterian church held its bi-monthly meeting at the home of Mrs. Walter Black. There were seven members and one visitor present. The lesson was conducted by Mrs. Joe Black.

### SCOUTS WILL ORGANIZE

Boys interested in the Boy Scout organization will meet Friday night to organize. C. W. West will act as scoutmaster.

Mr. and Mrs. Carl Laughery visited relatives in Amarillo Monday.

## FREE PICTURE SHOW WILL FEATURE TRADES DAY—FREE TURKEYS GIVEN FOLLOWING AUCTION OF GOODS

**Committee Announces Full Day of Fun, Frolic, and Bargains for November Trades Day to be Held on Next Monday—Pre-Christmas Buying Urged by the Business Houses of Canyon.**

## Rotary Club Meet With Chamber Next Tuesday Evening

The Rotary Club luncheon for next week will be held on Tuesday night at 7:30 o'clock at the Presbyterian church. A joint meeting will be held with the Chamber of Commerce at the annual election of officers.

There was a large attendance Tuesday at the meeting of the Rotary club, with several visitors from out-of-town.

Joe Self and El Rusk furnished the program for the day, giving a program of old time fiddlers music, which was greatly appreciated by the Club and visitors.

Among the visitors present were: E. H. Templin and F. C. Reitch, who are making the soil survey in the county, Coach Claude Reeds, J. W. Shanklin, Lewis Shirley, Joe Self, El Rusk, all of Canyon; and the following from Amarillo: John B. Gilvin, W. H. Brymer, W. A. McIntosh, Bill Matthews and Geo. Waddill.

Mr. Gilvin and Mr. Brymer spoke regarding their new addition to be opened soon, and expressed great confidence in the future of Canyon. It is their desire to make this addition the show window of Canyon and to develop it in the right manner.

## Delegates to Women Athletic Association to be Honored at Tea

The American Association of University Women is honoring the delegates to the Women's Athletic Association of Texas Colleges Convention with a tea at the home of Miss Mary E. Hudspeth Saturday afternoon at 4 o'clock. Among those in the receiving line will be the president of the local branch of American Association of University Women, Miss Hattie M. Anderson; the president of the High School Girls Athletic Association, Miss Julia Ann Aycock; the president of the Texas Outing Club, Miss Oma Wilson; Miss Charlie Mae Harding of the local branch of the Women's Athletic Association; and members of the Home Economics faculty; and Mrs. Travis Shaw and Miss Ruth Cross of the Physical Education Department for Women of the West Texas State Teachers College.

The November Trades Day in Canyon will be a real treat, according to announcement of the committee, C. L. Thompson, J. W. Kleinschmidt and H. O. Price. The committee is enthusiastic over the support of the business houses in an effort to make an interesting program for the people of the county and to give real bargains for pre-Christmas buying.

The feature of the day is the free All-Talking Picture Show, "Pleasure Crazy" at the Olympic which is being paid for by the merchants of Canyon. Every merchant who is sponsoring the entertainment has a supply of tickets to give to customers who visit the various stores. Call for these tickets Monday, and then see the show. The picture will run continuously from 1:00 to 6:00 p. m.

There will be an auction sale at 2:30 o'clock. Farmers who have something to sell are invited to place articles in the sale. See the list which follows of the new merchandise being offered in the auction.

Two turkeys will be turned loose just after the auction sale. They go to the one who catches them. Be sure to be on hands when the auction sale closes and get a turkey free.

Tickets to the show may be procured at the following places: Thompson Hardware Co., Warwick Printing Co., Palo Duro Cafe, "K" Service Station, H. O. Price Gro., Canyon Grocery Co., Texas Utilities Co., E. Burroughs, Elite Barber and Beauty Shop, Mark Foster's Sandwich Shop, J. J. Walker Drug Store, Farlow Motor Co., Foster Filling Station, R. E. Entered at the postoffice at Canyon, Texas, as second class matter. Published weekly at office, 1513 Fourth Avenue, Canyon, Texas.

A noted jurist at Austin took a drink of white mule, became intoxicated, and stabbed to death a young woman. Insanity will probably be the defense. Of course the line of reasoning should be that any man who drinks bootleg whiskey ought to be judged insane, but as a matter of fact too many men who are sensible in other things are drinking too much poison in the way of illegal liquor. The judge in question took an oath to support the constitution of the state and of the United States when he became a lawyer. As he is held in jail awaiting court procedure, he probably has wished a thousand times that he had not broken his pledge to society.

Twelve years ago it was easy to interest people in the Red Cross. Randall county raised \$15,000 for the Red Cross in a short while. The war was on, and people were enthusiastic. But the Red Cross is not primarily a war organization. It is a peace concern, and works that people may live longer and enjoy better health. If the roll call goes over in Randall county, a nurse will come to teach the children the right way to live. It is cheaper to educate the people how to live than it is to take care of them or try to cure them after they have lost their health.

Diphtheria is increasing in Texas. It is reported that many towns have a large number of cases. All of the cases are light, and therein lies the danger. The person with the light case does not stay at home or is not placed under quarantine, and the disease rapidly spreads. This is published as a warning lest the disease get started in Canyon.

Some people in Texas are throwing up their hands in horror that Tammany was returned to power

in New York. So far as we are concerned, that is the business of New York. Tammany has been running things a long while up there, and will continue to run the city. Furthermore, the Tammany organization is no more rotten than is the republican organization in Chicago, Philadelphia, and other big northern cities. And all of these big cities are as wet as the Atlantic ocean, whether they be under Democratic or Republican rule.

The state of Texas will be redistricted by the legislature in 1931 as to representative, senatorial and congressional districts. The basis for redistricting is largely upon the number of poll tax receipts issued this year. It is therefore of vital importance that every person of age in the county secure a poll tax receipt, and those who should receive exemption certificates should procure the same. It is generally believed that redistricting is based upon the federal census, but this is not true in the state offices. Some organization in Canyon should sponsor the movement to see that every person pays a poll tax this year.

The News wishes to pause long enough to pay tribute to one of "its own boys." John L. McCarty, editor of the Dalhart Texan. John used to work on this paper while a student in the College. He took over the Dalhart Texan this spring, and publishes a 24-page edition every week. It is the only paper in a town the size of Dalhart we have ever read which is able to maintain a 24-page standard week after week.

Governor Moody is advocating the state wide highway bond issue. The bond issue lacked only three votes of being submitted to the people by the regular session of the legislature, and will come up again in the regular session of 1931. It may be submitted to the people at that time, but from what we have heard during the past few months, it will never carry at the polls. People are getting a little skeptical about bond issues.

It would be a fine thing if some organization in Canyon would sponsor a movement to decorate the town for Christmas. Many homes place decorated Christmas trees on their lawns, and they look beautiful. Many towns have decorated trees around the public squares. The Christmas spirit is greatly increased when a uniform movement is started to decorate the town.

The Palo Duro Park committee is getting down to business in a business-like manner. The future of the organization depends upon the ground work of the present organization, and we believe that it will be sound. The people who are working for the park are outstanding Panhandle citizens, who are devoting their lives to public enterprises. Whatever is done will be well done.

Taking the federal census will start early in the spring. A lot of Chamber of Commerce secretaries will have to revise their population figures after Uncle Sam counts noses.

Claude News: That 52-page edition of The Canyon News which came from the press last week is a humdinger. It was devoted to Randall County Progress and better farming for that section of Texas. Farming of today and farming thirty years ago, was pictured in this big edition. The Canyon News editor, State Representative, Clyde W. Warwick, and his co-workers, are to be congratulated upon their efforts to boost Canyon and Randall county. It takes work and lots of it besides tons of paper to print such an elaborate edition of a newspaper. That up-to-date print shop Mr. Warwick has makes it easier for him to produce such a mammoth edition as this.

Pampa News: Congratulations are due The Canyon News on the fine 52-page edition devoted to the progress of Randall county. The Canyon weekly holds a large engraved cup it won for being the best illustrated country newspaper in the Texas Press association. Legislator Clyde Warwick, the editor, continues this tradition by the use of scores of illustrations in the big edition. These relate to the Teachers college, new buildings, Rotary club, public officials and agriculture. Considerable credit is due Edward Gerald, now a professor in the University of Missouri,

who spent a month doing field work in connection with the farm write-ups.

## A CANYONADE

State Press in Dallas News: The Canyon contemporary uttered a fifty-two page edition, all good and all worthy of preservation by its constituents. The only criticism State Press could make is that the paper contained the pictures of two-score distinguished Canyon gentlemen and only half a dozen or so of lovely Canyon ladies. When S. P. looks at a person's picture he wants it to be a pretty one. Canyon had the material, so it must be charged against its honorable editor that he overlooked, in the main, his community's finest resources. Since that editor began going to the Legislature it may be that he has fallen into the habit of confusing political values with the social, to the detriment of the latter. In any case, Canyon was well served by the News' special edition. These historical and exhibitional special editions are not as a rule half as profitable to the publisher as to the town and county he serves. Business men who contribute special advertising are indirectly, but potentially, contributing to their own good. The growth of the town is the growth of its business, and to really know one's own home one must see it fully and picturesquely exhibited in print once in a while. Like Canyon, like all the rest. Advertising pays.

## RANDALL COUNTY PROGRAM

Star-Telegram: The Canyon News issued a 52-page paper in six sections last week, which is a meritorious accomplishment for any weekly. More remarkable, though, than the size of the paper was the story it told. The issue was dedicated to progress in Randall county generally, and to better farming particularly. The strides Randall county farmers, through the adoption of modern methods have made within the last few years are almost unbelievable, but The News in its accounts produces proof.

The columns of the special edition are filled with accounts of individual Randall county farmers who have succeeded in gaining from the soil independence, instead of being in a state of bondage to the soil. Most of them have risen from the latter state to the former by hard work and the use of their good sense. In many instances, The News illustrates these stories of individual success with photographs of farm life showing prosperity equalled in few farming communities.

Not many years ago herds of buffalo and then the longhorn were grazing on land over which

huge combines now wade through wheat, shoulder high. There is livestock, too, and plenty of it, but it is the purebred meat animal and the producing dairy cow. There are laying hens and fine hogs. All of these things The News tells about in its special edition, and presents this gigantic change as a great drama, which in reality it is.

What is true of Randall county is true of the rest of the Panhandle, of which it is a part. Great changes have been wrought in a remarkably short time. They have been wrought by men with an unbounded faith in their opportunities—the plain farmers like those in Randall county.

"Women always say they are younger than they are."

"Not always. I promised my fiancée a necklace with a pearl for every year of her life, and she said she was five years older than she was."—Buen Humar (Madrid).

Shy Girl: "Oh, but mother objects to kissing!"

Bright Lad: "Well that's all right, I'm not kissing her, am I?"

He: "I can tell by looking in a girl's eyes just what she thinks of me."

She: "How annoying."

**A CANYONADE**

State Press in Dallas News: The Canyon contemporary uttered a fifty-two page edition, all good and all worthy of preservation by its constituents. The only criticism State Press could make is that the paper contained the pictures of two-score distinguished Canyon gentlemen and only half a dozen or so of lovely Canyon ladies. When S. P. looks at a person's picture he wants it to be a pretty one. Canyon had the material, so it must be charged against its honorable editor that he overlooked, in the main, his community's finest resources. Since that editor began going to the Legislature it may be that he has fallen into the habit of confusing political values with the social, to the detriment of the latter. In any case, Canyon was well served by the News' special edition. These historic and exhibitional special editions are not as a rule half as profitable to the publisher as to the town and county he serves. Business men who contribute special advertising are indirectly, but potentially, contributing to their own good. The growth of the town is the growth of its business, and to really know one's own home one must see it fully and picturesquely exhibited in print once in a while. Like Canyon, like all the rest. Advertising pays.

**RANDALL COUNTY PROGRAM**

Star-Telegram. The Canyon News issued a 52-page paper in six sections last week, which is a meritorious accomplishment for any weekly. More remarkable, though, than the size of the paper was the story it told. The issue was dedicated to progress in Randall county generally, and to better farming particularly. The strides Randall county farmers, through the adoption of modern methods have made within the last few years are almost unbelievable, but The News in its accounts produces proof.

The columns of the special edition are filled with accounts of individual Randall county farmers who have succeeded in gaining from the soil independence, instead of being in a state of bondage to the soil. Most of them have risen from the latter state to the former by hard work and the use of their good sense. In many instances, The News illustrates these stories of individual success with photographs of farm life showing prosperity equalled in few farming communities.

Not many years ago herds of buffalo and then the longhorns were grazing on land over which

huge combines now wade through wheat, shoulder high. There is livestock, too, and plenty of it, but it is the purebred meat animal and the producing dairy cow. There are laying hens and fine hogs. All of these things The News tells about in its special edition, and presents this gigantic change as a great drama, which in reality it is.

What is true of Randall county is true of the rest of the Panhandle, of which it is a part. Great changes have been wrought in a remarkably short time. They have been wrought by men with an unbounded faith in their opportunities—the plain farmers like those in Randall county.

"She's a banker's daughter."

"No wonder she draws so much interest."

First Business Man: "Miss Burke is applying for a position in my office. Did she ever work for you?"

Second business Man: No."

"I see. How long was she in your employ?"

"What did you say?"

"I told him not to let me catch him with any of the other seven."

**PRICE OF BROKEN PRECEDENT**

"Women always say they are younger than they are."

"Not always. I promised my fiancée a necklace with a pearl for every year of her life, and she said she was five years older than she was."—Buen Humar (Madrid).

Shy Girl: "Oh, but mother objects to kissing!"

Bright Lad: "Well that's all right; I'm not kissing her, am I?"

He: "I can tell by looking in a girl's eyes just what she thinks of me."

She: "How annoying."

**PERFECT**

Success Expert: What's your name?

Greek Client: Gus Poppapopopoulos.

Success Expert: Get a job selling motorcycles.

First Farmer: "I've got a freak on my farm. It's a two-legged calf."

Second Farmer: "I know. He came over last night to call on my daughter."

Wife: "What 'ave you got there, Bill?"

Bill: "Only a bull-pup."

Wife: "Where do you think you are goin' to keep it when it's a full-grown bull?"

Extending a helping hand is commendable, but a hand with something in it is more practical.

### 2 Glasses Water, Not Too Cold, Help Constipation

One glass water is not enough—take 2 glasses a half hour before breakfast. You get quicker and better results by adding a little simple glycerin, saline, etc., (known as Adlerika) to one glass.

Unlike other remedies, Adlerika acts on BOTH upper and lower bowel and removes old poisons you never thought were in your system. Adlerika stops GAS and sour stomach in 10 minutes! Relieves constipation in 2 hours. Jarrett Drug Company.

Duflet Speaks To  
Amarillo P. T. A.

J. L. Duflet, head of the sociology department of the West Texas State Teachers College was principal speaker at the meeting of the San Jacinto Parent-Teachers Association in Amarillo Tuesday afternoon. He used the subject: "Human Nature," discussing it from the standpoint of the home and school. He said, human nature is a social product acquired by association with others. The human personality is a role that the individual concedes to himself with respect to a group. It is the opinion of others that influences this personality.

He gave three types of human personality: First, the organized personality. This type presents no problem to himself or his community. His habits, ideals, etc., are in relation to the society in which he moves. The second type is the unorganized type, which presents a too rapid growth and lack in system, making this type out of tune with his group. The third type is the disorganized personality, which never had co-ordination, and has become disintegrated. He does not understand the group with whom he associates and the group does not understand him. Here the intellectual attitude rather than the emotional, has its influence. The boy who is troublesome must be understood before lectured. With every attitude there is an object, with every object there is an attitude. So his attitude must be changed and the forces that move him must be understood, before correction.

## AWAKENING

By John Joseph Gaines  
Five o'clock in the morning. The hum of a motor comes in at my open window. . . a realization that the new day has arrived exactly on time. Other motors rat-

tle in their loose running-gears; the growl—the tremble of human voices add to the evidence that the morning is on—the town is awakening! Soon the blare will be on, the rush, the helter-skelter, mad chase for daily bread. If not more—the

town is getting on its feet, after a night of rest; the swelling energy manifests itself; the odor of browning bacon—the aroma of delicious coffee, the snap of the electric toaster. . . A new sheet is in the typewriter; thoughts come cheerily in the sweet morning air

—the town is awakening.

An era of concerted effort, the contact of elbow with elbow, the purr of breathing in unison, the glow of the municipal soul. Every man is at his post—the day is on. Routine may become deadly. A town afflicted with routine may be walking in its sleep—and that is evidence of a nervous affection which might be improved by treatment. A town never gets anywhere that has an epidemic of sonambulism. Maybe the town is not awake after all, in spite of its noise and grind.

My town is awake, if you will permit personalities. It is alert to grasp every idea calculated to bring civic good to its people. It is not committed to a policy of every man for himself and devil take the hindmost. Health, morals and mutual benefit are included in our demands as well as our prayers. It makes a town when its people feel like that. Schools, churches, society, civilization are our inspiration. Good citizens make a good town where good people love to stay. I love to hear a reference to "the old home town" where the wakefulness was genuine, not pathologic.

Individuals may awaken—but the community spirit must awaken before the town is real. Some of us might well study the habits of the prairie dog.

Working Students  
Re-organize Club

Much interest was manifested when the students of the regular college payroll met Thursday for the purpose of electing officers for the Luncheon Club. Miss Thelma Brummett, president of last year's club, presided, and the following officers were chosen: President, Neville Wrenn; vice president, Hal Hartick; secretary and treasurer, Mary Louise Anderson; Prairie reporter and Annual representative, Mary Esther McDonald; Mr. D. A. Shirley was again selected sponsor of the club. Marie Dodgen was appointed chairman of the committee on Constitution and By-laws.

The club plans to meet every first and third Monday at 12:10 at the college cafeteria. All students interested in the club are asked to watch the bulletin board for further announcements. Those eligible for membership are: Mary Louise Anderson, Newton Crain, Marie Miles, Inez Allen, Ruby Kendrick Cherry, Laura Christopher, Nellie Joe Baucom, Neville Wrenn, Mary Esther McDonald, Jim Crowder, Clifford Keith, Milton Morris, R. F. Newman, Edwin Comer, Farris Bass, Susan Meador, Roy Cheatham, Margaret Strain, Margaret Sheers, Marie Dodgen, Minerva Bookout, D. H. Haley, Anna Throckmorton, Margaret Glass, Gladys O'Neil, Louise Holgate, Howard Golden, Hal Hartick, Elizabeth Chandler, Weldon Howell, Seth Rollins.

Among the exes who visited the campus this week end were Mabel McQueen, Hazel McQueen Johnson, Jordan Miller, Elizabeth Benton Leechman, Dahlia Hemphill, Helen Dial Merriman, and Garrison Wallace.

Randall Hall of radio fame and the West Texas Buffaloes of football fame were honored by dedicatory numbers in the K G R S noon hour broadcasting program Tuesday.

CITATION BY PUBLICATION  
OF FINAL ACCOUNT

THE STATE OF TEXAS,  
To the Sheriff or any Costable of Randall County, Greeting:  
Wm. Ash, Administrator of the Estate of J. A. Cheatham, deceased having filed in our County Court his final Account of the condition of the Estate of said J. A. Cheatham, numbered 185 on the Probate Docket of Randall County, together with an application to be discharged from said Estate.

You are hereby commanded, that by publication of this writ for twenty days in a newspaper printed in the County of Randall you give due notice to all persons interested in the Account for Final Settlement of said Estate, to appear and contest the same if they see proper so to do, on or before the December Term, 1929, of said County Court, commencing and to be holden at the Court House of said County, in the city of Canyon, on the 16th in December A. D. 1929, when said Account and Application will be acted upon by said Court.

Given under my hand and seal of said Court, at my office in the City of Canyon, this 7 day of November A. D. 1929.

A radio apparatus should not attempt to improve upon the performance of opera or concert star, or of a symphony orchestra. The Day-Fan Radio presents all the resonant low tones in their real value—but it does not over-emphasize them. The silvery clear naturalness of higher notes adds a distinctive Brilliance to the musical performance.

# FOUR-DAY SALE

## FRIDAY, SATURDAY, MONDAY AND TUESDAY

The biggest one we have ever had starts next Friday morning, and closes Tuesday night (4 Days) Friday, Saturday, Monday, and Tuesday. Prices slashed from 10% to 50%. Nothing reserved, everything goes. A lot of you have shopped the Amarillo Sales, and come back here to buy, stating that our regular prices were under. Some of you have phoned us from Amarillo, to hold certain garments until you could get back. Our October business was ahead of a year ago, regardless of the paved road, and the cut price sales. A lot of Amarillo people are coming here to buy, because they can't afford to pay the sale prices there. One day last week our sales were more to Amarillo customers, than we sold to home folks. Regardless, some of you have gone up there and bought, and paid more, just because you didn't take time to look at home. Come in and let us show you, then if you don't buy, the fault is ours.

We have too heavy a stock, with invoicing time just ahead, and expect to move at least \$10,000.00 worth of merchandise during the sale. It will pay you several times over to prepare yourselves for the cold winter "Tack tells us about" during the sale. Compare our prices with your catalogs, chain stores, or any one else, and if we can't save you money, don't buy. If we can save you money, we are mighty glad to serve you. SALE lasts only 4 days. Were we to continue to sell at these prices very long, we would soon go into bankruptcy. This is your opportunity to own a lot of this merchandise at less than the manufacturers' actual cost.

**SALE PRICES ARE FOR SPOT CASH ONLY, CHARGED AT REGULAR PRICE.**

### AUCTION SALE

Monday afternoon immediately after the Trades Day Auction, we will hold an Auction Sale in our Store. Goods at your own price. Col. McCrerey, Auctioneer.

CANYON TEXAS

# FOUR-DAY SALE

## FRIDAY, SATURDAY, MONDAY AND TUESDAY

The biggest one we have ever had starts next Friday morning, and closes Tuesday night (4 Days) Friday, Saturday, Monday, and Tuesday. Prices slashed from 10% to 50%. Nothing reserved, everything goes. A lot of you have shopped the Amarillo Sales, and come back here to buy, stating that our regular prices were under. Some of you have phoned us from Amarillo, to hold certain garments until you could get back. Our October business was ahead of a year ago, regardless of the paved road, and the cut price sales. A lot of Amarillo people are coming here to buy, because they can't afford to pay the sale prices there. One day last week our sales were more to Amarillo customers, than we sold to home folks. Regardless, some of you have gone up there and bought, and paid more, just because you didn't take time to look at home. Come in and let us show you, then if you don't buy, the fault is ours.

We have too heavy a stock, with invoicing time just ahead, and expect to move at least \$10,000.00 worth of merchandise during the sale. It will pay you several times over to prepare yourselves for the cold winter "Tack tells us about" during the sale. Compare our prices with your catalogs, chain stores, or any one else, and if we can't save you money, don't buy. If we can save you money, we are mighty glad to serve you. SALE lasts only 4 days. Were we to continue to sell at these prices very long, we would soon go into bankruptcy. This is your opportunity to own a lot of this merchandise at less than the manufacturers' actual cost.

**SALE PRICES ARE FOR SPOT CASH ONLY, CHARGED AT REGULAR PRICE.**

### AUCTION SALE

Monday afternoon immediately after the Trades Day Auction, we will hold an Auction Sale in our Store. Goods at your own price. Col. McCrerey, Auctioneer.

### President Hill To Preside at Exes Dallas Breakfast

Ex-students of West Texas State Teachers College who attend the State Teachers Association meeting at Dallas during Thanksgiving will meet for the annual breakfast in the main dining room of the Adolphus Hotel Friday morning, November 29 at seven o'clock.

The breakfast will be a very informal affair. President J. A. Hill will preside. Over one hundred are expected to be present.

Miss Mary Smith Clark of Dallas who is in charge of the reservations announces that all reservations for plates should be made by Thursday noon, November 28. Her address is 4137 Wycliff; her telephone number 5-5869. The price of plates is \$1.00 each.

### Amarillo Man Says Father In Perfect Health Now

**Kept Going Down Hill Until He Took Orgatone—Now Able to Do Anything.**

"I never saw anyone pick up so fast as my father, T. W. Brady, has since he started taking Orgatone," said H. T. Brady, well known laundry man for the Amarillo Laundry, Amarillo, Texas.

He suffered awfully from indigestion and kidney trouble for the past three years," continued Mr. Brady, "and his kidneys seemed to give him a good deal of trouble and he was going down hill all the time. He had a fairly good appetite, but right after eating his food would feel like a lump of lead in his stomach and it gave him so much trouble that he got so he would hardly taste a thing at the table. He felt droopy and lazy all the time and had a very stubborn case of constipation. Gall stones also gave him a great deal of trouble. He just moped around all the time and couldn't get up energy to do a thing. He worried a lot about his kidneys and complained of having severe pains in his side and back, and sometimes his back would hurt so bad he could hardly get up out of a chair.

"He read so much in other town papers even before Orgatone was introduced here that he sent and got two bottles by mail and started in on it. He is still on his third bottle, but it has done him a world of good, and he is looking and feeling much better than he has for a long time. He passed several gall stones and his kidneys don't bother him any more and he hasn't had a pain in his side or back in some time. He has gained weight and is stronger too, and is able to do anything he wants. The indigestion don't trouble him any more and he can eat a good square meal without any pain afterwards. Orgatone is the only medicine that he has bought that has been of any benefit to my father and he is so well pleased with what it has done for him that he is telling all his friends about it."

Genuine Orgatone is manufactured by one of the world's largest laboratories and is not a so-called secret or patent remedy but a new scientific bile treatment and is sold in Canyon by the Jarrett Drug Co.

### "DON'T GO TO BED WHEN YOU FEEL SICK"

By Bernarr Macfadden

What is the first thing you think of when you feel ill? Going to bed, of course! But everyone cannot give up as easily as that. There is work on hand, jobs to be done, children to look after and the countless things that go to make up the day of the average active individual. And the person who is unable to "give up" and who says: "I will have to keep going until I drop in my tracks!" usually feels very sorry for himself.

But if he only knew it, he is fortunate indeed, for he stands a better chance of getting well than the "lucky" one who can take to his bed at the first sign of indisposition.

The reason is obvious.

What happens when you "give up and go to bed?" All mechanical stimulation of the organs of your body ceases. The digestion is not carried on so freely. Tissue change is not so active. The purifying functions of the body are retarded.

On top of this you are probably brought three times a day a tray loaded down with food that would be hard for a well person to digest. "You must eat to keep up your strength!" the well meaning tray-bearer insists. And so you sigh, and eat. And you are longer than you expected to be in getting well.

"You must keep warm," someone else cautions, piling blankets on you and closing the window to within two inches of the sill—"Just to keep the air fresh."

And there you are. A fine breeding place for new diseases and a paradise for whatever ailment sent you to bed in the first place. And it is only one of Nature's miracles that you ever get well!

Why, you can make a well man sick by just such a procedure. Keep him in bed a week, load him with food, coddle him and he will be so shaky when he gets up that he'll need your hand to steady him.

Keep up when you feel sick! Take more exercise than ever. Move about, bend, stretch, do everything you can to stimulate the normal functions of your body. Keep them all working. Keep your blood circulating and give the white corpuscles a chance to fight whatever ails you. Work the poison out through the pores instead of keeping it under the bed clothes.

And keep up your spirits! Doctors themselves, even while telling you to go to bed, will impress upon you the value of a cheerful attitude, even though forced. Try to get your mind off yourself and get interested in something else. But don't go to bed until you have to.

Some people may never be on time, but they can at least be regular in being late.

Help Keep Canyon Clean.

### New Pep Squad is Formed Saturday By College Women

Helen Woods, better known as "Sis" was elected yell leader of the new pep squad organized Saturday morning which is composed of all college girls who do not belong to the Pi Omegas or the hall squads.

The meeting was called by Carmen Hawkins at the suggestion of President Hill. More definite plans for the organization, costumes, and stunts are to be discussed at an early date.

He suffered awfully from indigestion and kidney trouble for the past three years," continued Mr. Brady, "and his kidneys seemed to give him a good deal of trouble and he was going down hill all the time. He had a fairly good appetite, but right after eating his food would feel like a lump of lead in his stomach and it gave him so much trouble that he got so he would hardly taste a thing at the table. He felt droopy and lazy all the time and had a very stubborn case of constipation. Gall stones also gave him a great deal of trouble. He just moped around all the time and couldn't get up energy to do a thing. He worried a lot about his kidneys and complained of having severe pains in his side and back, and sometimes his back would hurt so bad he could hardly get up out of a chair.

"He read so much in other town papers even before Orgatone was introduced here that he sent and got two bottles by mail and started in on it. He is still on his third bottle, but it has done him a world of good, and he is looking and feeling much better than he has for a long time. He passed several gall stones and his kidneys don't bother him any more and he hasn't had a pain in his side or back in some time. He has gained weight and is stronger too, and is able to do anything he wants. The indigestion don't trouble him any more and he can eat a good square meal without any pain afterwards. Orgatone is the only medicine that he has bought that has been of any benefit to my father and he is so well pleased with what it has done for him that he is telling all his friends about it."

Genuine Orgatone is manufactured by one of the world's largest laboratories and is not a so-called secret or patent remedy but a new scientific bile treatment and is sold in Canyon by the Jarrett Drug Co.

New Pep Squad is Formed Saturday By College Women

Helen Woods, better known as "Sis" was elected yell leader of the new pep squad organized Saturday morning which is composed of all college girls who do not belong to the Pi Omegas or the hall squads.

The meeting was called by Carmen Hawkins at the suggestion of President Hill. More definite plans for the organization, costumes, and stunts are to be discussed at an early date.

## GAS CIRCULATOR HEATERS

Represents the latest style in modern home heating. The improved beauty of design and lines equal the beauty of highly finished furniture.

"No odors or fumes." The Gas Circulator is of closed fuel type. The combustion of gases takes place within its gas tight steel walls. There are no leaks and the gases are not mixed with heated air as in open fuel types. It is fitted with a collar for flue connection that carries off fumes and moisture. This feature is of importance in the choice of gas heaters in order to eliminate excessive moisture in the rooms.

Being of the circulator or furnace type causes continuous circulation of hot air, therefore giving a uniform temperature practically all over the rooms. This wonderful heater is out of

the experimental stage and has been fully proved and demonstrated in the homes of some of our customers last winter. Call at our store and let us show you this wonderful Circulator Heater.

Free Tickets to all customers for Trades Day Matinee Talking Moving Picture Show.

## GAS CIRCULATOR HEATERS

Represents the latest style in modern home heating. The improved beauty of design and lines equal the beauty of highly finished furniture.

"No odors or fumes." The Gas Circulator is of closed fuel type. The combustion of gases takes place within its gas tight steel walls. There are no leaks and the gases are not mixed with heated air as in open fuel types. It is fitted with a collar for flue connection that carries off fumes and moisture. This feature is of importance in the choice of gas heaters in order to eliminate excessive moisture in the rooms.

Being of the circulator or furnace type causes continuous circulation of hot air, therefore giving a uniform temperature practically all over the rooms. This wonderful heater is out of the experimental stage and has been fully proved and demonstrated in the homes of some of our customers last winter. Call at our store and let us show you this wonderful Circulator Heater.

## "Stop Thief" To Be Presented By C.H.S. on Monday

On Monday evening, November 25th, at 7:45, the C. H. S. Talkies will present their first play in the auditorium of the high school. This is a three-act farcical comedy, entitled "Stop Thief," by Carlyle Moore.

The story is something like this: The wonderful day has arrived. Madge is to be married! The arrangements are made, the minister arrives, and the guests are assembled; then things begin to happen. The diamond bracelet disappears, and Mr. Carr finds it in his pocket. Also the bride-groom discovers his mother-in-law's ear-trumpet in his pocket. The safe is robbed—the bonds and the beautiful diamond heirlooms are stolen. Mrs. Carr nearly has hysterics, and there are two kleptomaniacs in the house. The police arrive to search the house. Who ever heard of such a wedding day! The maid and her partner are clever thieves. Does it end happily? Oh yes, after many thrills, laughs, and enough excitement for all.

Come and sympathize with the beautiful bride who is none other than our own Margaret Gamble. Mrs. Carr, slightly deaf, and her absent-minded husband, William Carr, in the persons of Clarice Matthews and George Archer, are a scream. Also Elvin Wesley and Margaret Bengie as Jack Doogan and Neil, will make the audience sit up and take notice, for the plot reveals them as the maid and her partner, who cause all the

## National Oratorical Contest Closes with Roch Pinard Winner

The oratorical contest launched last spring for high school students has closed. Recently in Washington, D. C., the climax of this contest was reached when eight young students, introduced by their national anthem appeared before a large audience and gave the address that won for each honors in his home land last spring. Six judges gave the decision. These judges were famous scholars and linguists. The Ambassadors of France and Germany were on the platform while the Netherlands minister was one of the judges. The German Ambassador von Prittwitz and Graffon, opened the program with a welcoming address.

The first speaker was the United States representative, Ben W. Swafford of Kansas City, Mo. His topic was "The American Constitution and its Framers." Then followed the representatives of France, G. Fouché; of Prussia, H. Schaumann; of Mexico, R. Gris; of Peru, B. Lecarnos; of Canada, R. Pinard; of Denmark, L. Torseff; of Cuba, V. Suarez; and of England, F. W. Allen.

There was but one girl entered, Lis Forseff of Denmark.

The victory was awarded to Roch Pinard of Canada who spoke in French on "Canada Among the Nations."

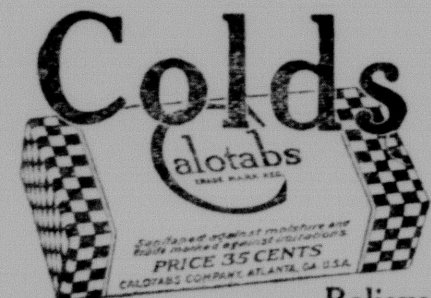

## Eagles Play Bucks With Final Score Twenty to Nothing

Two consecutive games in as many days are not enough to stop the Eagles. Canyons' teams played and won two games on Thursday and Friday of last week. White Deer played and lost the game Friday by a 20 to 0 score. Coach Spann states, "We would have had a much larger score if the boys had exhibited a little stiff-arming and side-stepping."

No score was made in the first half, but the boys stepped in and scored three touchdowns and two goals in the last half. Howard Williams and Earl Cross, the two heavy backfield men, by running and plunging caused the ball to move steadily for a touchdown. Ralph Cabe found a broken field several times and became difficult to stop. Ralph is that little backfield man, who, some person prophesied, would become the best backfield man in the Panhandle. Bill Strain, one of the substitute backfield men, passed for several gains and also toted the ball for a number of yards. Bill made some fine tackles and played a good game. Ottis Cheyne, a substitute tackle "held that line!" Ottis is a tower of strength, and when the men hit him, they almost bounce back. Cheyne hits the line standing up which enables him to break through the line. This great big tackle broke through several times and tackled for a loss each time. Coach stated that Ottis would be a good player after he had about a years training. Wayne Johnson played an excellent game, in fact, as good a game as he has played this year. Dobie broke the line and helped with several good tackles. Joe Jennings and Woodrow Hazlewood played the ends in fine style. Both of these players have played well all season. John Pool, the center, not only helped but broke up several plays. A good center is very essential to the winning team. Pool was careful and eliminated fumbles in the game.

The Eagles have been scored on only a few times. If this team played the smaller teams, Canyon would never be scored on, but Coach's team plays the best in the Panhandle, therefore Canyon has lost a few games by only a few points.

## Students Find Work of Translation in Latin Interesting

Students of second year Latin are finding the translating of the Greek stories of "Jason and the Golden Fleece" interesting. Each pupil is making a translation of them. The instructor is wondering if the charm and individuality of these translations will not rival that of Pope's "Iliad." Illustrations of these will be collected. Should these prove to be highly successful, Roman stories and Caesars "Gaelic Wars" will be undertaken in the same manner.

## This Week is Book Week For Children All Over the Land

From November 17th to November 23rd is the National Children's Book Week. This first originated ten years ago when Franklin H. Mathews, who was then chief librarian of the Boy Scout Association started the custom of devoting one week from each year for the purpose of advocating good books for boys. This interested the librarians, who thought that this would aid the book habit and develop many new readers. This was a success from the start. The girls were then included. Women's clubs, book stores and many organizations began to lend their interest and aid to this project.

Canyon grade school now has a good library, but it could be improved. If you have any children's books around home, why not give them to the library? They would be appreciated.

## BOOK WEEK

Since this is book week, it will be interesting to note the progress which has been going on in the libraries in Canyon schools. Both the high school and grammar school libraries have, through donations and library fees, been greatly improved in the last three years.

If a school has a good library, it is beyond all doubt, a good school, because a good library with good books is essential to every school; not only because of the help they give to the instructors, but also for the enjoyment they give to the students. These libraries, although not perfectly equipped, will within the next few years become an essential part in the school life of Canyon.

## Red Cross Drive to Hire School Nurse Is Put On in Town

On Armistice Day, November the eleventh, the drive for membership, in the Red Cross began all over our country. This drive continues until Thanksgiving, and during this time, every man and woman is given an opportunity to become a member of the Red Cross. The annual dues are one dollar per capita, but money in any amount is very gratefully received. The Red Cross funds are used to help the needy and suffering wherever they are found. Especially in times of disaster, such as storms, floods, fires, epidemics, or droughts, the Red Cross is always ready to serve suffering humanity. It is the largest organization of its kind in our nation, and no other organization receives the support that is given to the Red Cross.

A great many people have the idea that it is only in time of war that the Red Cross does active service. This is indeed a mistake, for the program in time of peace is just as necessary and beneficial as perhaps more far-reaching than during a war. The Red Cross stresses the health of the country and large sums of money are spent every year on programs teaching sanitation, proper diet, fighting all the dreaded diseases, and educating the public in every way that will tend toward better health.

In this community this year the funds will be used to employ a nurse for the public schools for three months, beginning in February. This nurse will work in the schools in co-operation with the physicians, weighing and examining the children, recommending to parents the individual needs, and lecturing and teaching proper dress, foods, and sanitary living. Because this special benefit is received from the drive this year, the students want to be sure that all the people in this community become members and help meet this need.

Two men were talking about horse racing and remarking upon the silly names given to many horses.

"If I kept a race horse I know what I should call him," said one. "What?" asked the other. "Change of a Dollar." "But that's absurd, isn't it?" "Is it? Tell me anything that goes more quickly."

## LEADING HIM BACK TO EARTH

Five positive digestive aids in pleasant tablet form. No soda, dope, or laxative. Get Diotex from your druggist for only 60c. Try it. See how fast it works. Money back if it does not give stomach comfort in 15 minutes, and soon help restore good digestion.

## Girls Organize and Make Many Plans For Coming Year

Many plans are being made in preparation for a girls' rest room in one of the vacant rooms on the third floor of the high school building. The room was used in past years as the senior class room, but it will be of much more use as a rest room for the girls of the school.

In this room will be a bed, chairs, pillows, foot-stools and a table. These are to be bought by the girls of the school. Each one has donated a nickel, and each one is very anxious to get the room ready for use. Other things such as pictures, scarfs, curtains, rugs, and lamps will help to make the room an attractive and inviting one.

The room will be used mostly by those who become ill while at school. In this way the school will be made more like the home.

The sweetness of low price NEVER equals the bitterness of poor quality.

Lack of appetite, loss of strength, skin eruptions, that "tired feeling" and other human ills may be due to a lack of red-cells in your blood.

"MY despair was so great I could have cried. The good cheer and merry happiness of others only mocked at my condition. I had begun to wonder why life could be so cruel. No appetite. No strength. Skin blemishes always embarrassed me. Aches and pains coursed through my body. I wanted to restore my health and live. What was I to do? . . . happily the day came and I found the right road to Health when a friend recommended S.S.S."

You may be one of the thousands with a low blood count—to this may be attributed "run-down" systems, skin troubles, and even more serious ailments. It is very dangerous to let the blood count remain below normal.

With an increase in the red-blood-cells you will be on the right road to Health. This is Nature's way to body power and to clear skin. Naturally, with your strength restored, it is easier to fight disease and infection; to enjoy your food and to sleep soundly. When firm flesh takes the place of that which was once flabby, you will feel strong—your nerves will become steady—more happiness and friends will follow.

You owe it to yourself and friends to give S.S.S. a trial. It helps Nature build rich, red blood. Thousands of users have testified to its benefits in unsolicited letters of gratitude. All drug stores sell S.S.S. in two sizes. Ask for the larger size. It is more economical.

A CLEAR SKIN comes from within

Lack of appetite, loss of strength, skin eruptions, that "tired feeling" and other human ills may be due to a lack of red-cells in your blood.

If you are tired—lack pep—if your skin is not clear—if your appetite is "gone"—you owe it to yourself and friends to try S.S.S.

## Students Find Work of Translation in Latin Interesting

Students of second year Latin are finding the translating of the Greek stories of "Jason and the Golden Fleece" interesting. Each pupil is making a translation of them. The instructor is wondering if the charm and individuality of these translations will not rival that of Pope's "Iliad." Illustrations of these will be collected. Should these prove to be highly successful, Roman stories and Caesars "Gaelic Wars" will be undertaken in the same manner.

## This Week is Book Week For Children All Over the Land

From November 17th to November 23rd is the National Children's Book Week. This first originated ten years ago when Franklin H. Mathews, who was then chief librarian of the Boy Scout Association started the custom of devoting one week from each year for the purpose of advocating good books for boys. This interested the librarians, who thought that this would aid the book habit and develop many new readers. This was a success from the start. The girls were then included. Women's clubs, book stores and many organizations began to lend their interest and aid to this project.

Canyon grade school now has a good library, but it could be improved. If you have any children's books around home, why not give them to the library? They would be appreciated.

### BOOK WEEK

Since this is book week, it will be interesting to note the progress which has been going on in the libraries in Canyon schools. Both the high school and grammar school libraries have, through donations and library fees, been greatly improved in the last three years.

If a school has a good library, it is beyond all doubt, a good school, because a good library with good books is essential to every school, not only because of the help they give to the instructors, but also for the enjoyment they give to the students. These libraries, although not perfectly equipped, will within the next few years become an essential part in the school life of Canyon.

## Red Cross Drive to Hire School Nurse Is Put On in Town

On Armistice Day, November the eleventh, the drive for membership, in the Red Cross began all over our country. This drive continues until Thanksgiving, and during this time, every man and woman is given an opportunity to become a member of the Red Cross. The annual dues are one dollar per capita, but money in any amount is very gratefully received. The Red Cross funds are used to help the needy and suffering wherever they are found. Especially in times of disaster, such as storms, floods, fires, epidemics, or droughts, the Red Cross is always ready to serve suffering humanity. It is the largest organization of its kind in our nation, and no other organization receives the support that is given to the Red Cross.

A great many people have the idea that it is only in time of war that the Red Cross does active service. This is indeed a mistake, for the program in time of peace is just as necessary and beneficial and perhaps more far-reaching than during a war. The Red Cross stresses the health of the country and large sums of money are spent every year on programs teaching sanitation, proper diet, fighting all the dreaded diseases, and educating the public in every way that will tend toward better health.

In this community this year the funds will be used to employ a nurse to the public schools for three months, beginning in February. This nurse will work in the schools in co-operation with the physicians, weighing and examining the children, recommending to parents the individual needs, and lecturing and teaching proper dress, foods, and sanitary living. Because this special benefit is received from the drive this year, the students want to be sure that all the people in this community become members and help meet this need.

Two men were talking about horse racing and remarking upon the silly names given to many horses.

"If I kept a race horse I know what I should call him," said one.

"What?" asked the other.

"Change of a Dollar."

"But that's absurd, isn't it?"

"Is it? Tell me anything that goes more quickly."

## Stomach Trouble

If you suffer from gas, bloating, heartburn, acid, or sick stomach, because of dyspepsia, try the Dioxex 15 Minute Test. Absolutely harmless. Works fast. Five positive digestive aids in pleasant tablet form. No soda, dopes or laxative. Get Dioxex from your druggist for only 60c. Try it. See how fast it works. Money back if it doesn't give stomach comfort in 15 minutes, and soon help restore good digestion.

## Girls Organize and Make Many Plans For Coming Year

Many plans are being made in preparation for a girls' rest room in one of the vacant rooms on the third floor of the high school building. The room was used in past years as the senior class room, but it will be of much more use as a rest room for the girls of the school.

In this room will be a bed, chairs, pillows, foot-stools and a table. These are to be bought by the girls of the school. Each one has donated a nickel, and each one is very anxious to get the room ready for use. Other things such as pictures, scarfs, curtains, rugs, and lamps will help to make the room an attractive and inviting one.

The room will be used mostly by those who become ill while at school. In this way the school will be made more like the home.

## a revolutionizing Motor Oil, a new principle and a Challenge

## the Challenge

Several years ago, the exclusive North American patent rights on the Germ Process were acquired by this Company. It was evolved and patented by two British scientists after exhaustive chemical and physical laboratory tests.

Germ Process oils were revolutionary in that they met every requirement, through special characteristics, for each type of internal combustion motor. These scientists, by the Germ Process, eradicated the prevalent weaknesses existent in motor oils regardless of their base.

This Company has made innumerable laboratory and road tests, under every conceivable condition, over the past seven years, and we are now prepared to state definitely that your motor oil problem is solved by the Germ-Processed Motor Oils.

By comparison, our tests prove that the "Germ Essence" creates the only safe motor oil under all conditions and at all times operates at the highest obtainable efficiency. We are now prepared to meet any challenge of competitors. I confidently believe that Conoco Germ-Processed Paraffin Base Motor Oils are superior to any other motor oils made from any crude by any process.

More than twenty thousand outlets are now prepared to offer to the public such a motor oil for the discriminating buyer, and for a technical problem which has always been recognized but not solved until now.

*W. M. Norman* President,  
CONTINENTAL OIL COMPANY

## Here are our Claims for Conoco Germ-Processed Motor Oil— Check against the oil you are now using

**1** Under the Germ patents . . . exclusive to CONOCO for North America . . . there is imparted to CONOCO Germ-Processed Motor Oil an "oiliness" which is responsible for its greater lubricating value, greater film strength, greater penetrativeness, greater adhesiveness, greater tenacity, greater permanence, greater stability, greater stamina and a more nearly perfect compression seal than any other oil on the American market. Because of this affinity for metal—this actually combining with the metal itself, CONOCO Germ-Processed Motor Oil never leaves the bearings. Where other oils drain out and leave the surface dry, Germ-Processed oil penetrates the metal surfaces, forming a film that adheres for months. This "carry-over" film—this always present film gives ample lubrication to all parts needing it when a cold motor is started, until such time as oil from the crank case can reach them.

**2** This remarkable and exclusive feature of CONOCO Germ-Processed Motor Oil is reinforced by the fact that these oils are refined from only carefully selected paraffin base crudes by the most modern and scientific methods known to the petroleum technologist. Patented processes are used to remove all objectionable elements, leaving a perfectly balanced, stable product that is 100% lubricating oil. Thousands of tests demonstrate its remarkable resistance to corrosion.

The majority of motor oils never receive this degree of refining. None ever exceed it.

**3** Increased gasoline mileage and improved motor performance are realized through the use of this new oil. The exclusive CONOCO Germ Process so adds to the "oiliness" of this lubricant that metal-against-metal friction is eliminated, even in motor starting after all oil ordinarily would have drained from the motor into the crankcase. The perfect sealing qualities of the CONOCO fracture-proof

film insures a high compression efficiency that results in greatly increased motor performance. Marked improvements in power, speed, acceleration and flexibility are noticeable.

**4** Due to the Germ Process and the select, premium, paraffin base crude stocks used, CONOCO Germ-Processed Motor Oil positively does not break down under the most intense cylinder wall heat. A climb, high speed, heavy load, temperature extremes—none of these strains cause this oil to heat sufficiently to actually burn, break down or evaporate to any appreciable degree. By comparison with many oils on the market, you may confidently expect a saving in oil consumption up to 50%.

**5** Automotive engineers agree that 40% to 60% of all motor wear occurs during the starting period. This destructive wear is definitely reduced by the use of CONOCO Germ-Processed Motor Oil. Ordinary oil, thinned by heat and dilution, drains down past the piston rings when the motor is stopped, leaving little or no protective film. On starting the motor, a considerable time is required for the oil to reach all bearings and working surfaces. Under adverse conditions, such as winter temperatures, this time may be from 15 to 20 minutes or even longer.

Since CONOCO Germ-Processed Motor Oil never leaves the bearings and working surfaces, it is always there under any and all conditions to provide needed lubrication until the normal supply of oil arrives.

**6** Unlike other oils, dilution does not impair the "oiliness" value of CONOCO Germ-Processed Motor Oil.

**7** CONOCO Germ-Processed Motor Oil retains its fluidity at sub-zero temperatures. No practical operating conditions in winter will affect its immediate lubricating value at the first touch of the electric starter.

We invite you to enjoy the many additional miles of pleasure your motor car owes you by using this amazing new motor oil regularly. You will find it today at all stations displaying the CONOCO Red Triangle.

greater stability, greater stamina and a  
more nearly perfect compression seal than  
any other oil on the American market.  
Because of this affinity for metal—this  
actually combining with the metal itself,  
CONOCO Germ-Processed Motor Oil  
never leaves the bearings. Where other  
oils drain out and leave the surface dry,  
Germ-Processed oil penetrates the metal  
surfaces, forming a film that adheres for  
months. This "carry-over" film—this al-  
ways present film gives ample lubrication  
to all parts needing it when a cold motor is  
started, until such time as oil from the  
crank case can reach them.

2 This remarkable and exclusive feature  
of CONOCO Germ-Processed Motor  
Oil is reinforced by the fact that these  
oils are refined from only carefully selected  
paraffin base crudes by the most modern  
and scientific methods known to the petro-  
leum technologist. Patented processes are  
used to remove all objectionable elements,  
leaving a perfectly balanced, stable product  
that is 100% lubricating oil. Thousands of  
tests demonstrate its remarkable resistance  
to corrosion.

The majority of motor oils never receive  
this degree of refining. None ever exceed it.

3 Increased gasoline mileage and im-  
proved motor performance are realized  
through the use of this new oil. The  
exclusive CONOCO Germ Process so  
adds to the "oiliness" of this lubricant that  
metal-against-metal friction is eliminated,  
even in motor starting after all oil ordi-  
narily would have drained from the motor  
into the crankcase. The perfect sealing  
qualities of the CONOCO fracture-proof

film insures a high compression efficiency  
that results in greatly increased motor per-  
formance. Marked improvements in pow-  
er, speed, acceleration and flexibility are  
noticeable.

4 Due to the Germ Process and the se-  
lect, premium, paraffin base crude  
stocks used, CONOCO Germ-  
Processed Motor Oil positively does not break  
down under the most intense cylinder wall  
heat. A climb, high speed, heavy load, tem-  
perature extremes—none of these strains  
cause this oil to heat sufficiently to actually  
burn, break down or evaporate to any ap-  
preciable degree. By comparison with  
many oils on the market, you may confi-  
dently expect a saving in oil consumption  
up to 50%.

5 Automotive engineers agree that 40%  
to 60% of all motor wear occurs during  
the starting period. This destructive  
wear is definitely reduced by the use of  
CONOCO Germ-Processed Motor Oil.  
Ordinary oil, thinned by heat and dilution,  
drains down past the piston rings when the  
motor is stopped, leaving little or no pro-  
tective film. On starting the motor, a con-  
siderable time is required for the oil to  
reach all bearings and working surfaces.  
Under adverse conditions, such as winter  
temperatures, this time may be from 15 to  
20 minutes or even longer.

Since CONOCO Germ-Processed Motor  
Oil never leaves the bearings and working  
surfaces, it is always there under any and  
all conditions to provide needed lubrica-  
tion until the normal supply of oil arrives.

6 Unlike other oils, dilution does not im-  
pair the "oiliness" value of CONOCO  
Germ-Processed Motor Oil.

7 CONOCO Germ-Processed Motor Oil  
retains its fluidity at sub-zero tempera-  
tures. No practical operating conditions  
in winter will affect its immediate lubri-  
cating value at the first touch of the electric  
starter.

We invite you to enjoy the many additional miles of pleasure your motor  
car owes you by using this amazing new motor oil regularly. You will  
find it today at all stations displaying the CONOCO Red Triangle.

## Bufs Win Easy Victory Over Montezuma Indians on Buff Gridiron Saturday Afternoon

For Second Time in Same Week Buffaloes Defeat a New Mexico Team Here; Second and Third String Men are Run In After First Score.

The West Texas Buffaloes again defeated a New Mexico football team Saturday in a much slower battle than the one with the New Mexico Military Institute. This time the Chieftains from Montezuma were the victims. The Buffs held them for only one yard gainage during the first quarter. But the Chieftains never once gave up; they started off during the second quarter harder than ever and began to make several pretty runs.

The Montezuma stars were Shaw, Taylor, and Darnell. Shaw being the outstanding player. He was the best ground gainer and most deadly tackler on the team. Several times he broke through the Buffalo line for a good run. But at that the Indians were just playing a much stronger team. They started their aerial attack during the second half; but more passes were intercepted than caught and the ones they caught gave them very little gainage.

The Buffaloes made their first touchdown within the first six minutes of play. Taking the ball on their 20 yard line, they began to make their end runs. Gerald made the first score, but Powell and Jones helped him on gainage. Jones kicked goal for the extra point. After the first score, the first string men began coming out in order to be in top condition for the Thanksgiving game. But Powell thought it was best for him to make a touchdown before going out; taking the ball he made a pretty 25 yard run for the goal line after being hit by three Indians. Jones missed the extra

point.

Newman was the only man to stay in the back field during the entire game. His punting ability makes that necessary. One thing about Newman, he will not be beaten by any opponent. In the Military game last week, his average was 43 yards to the Bronchos 42. In the game Saturday, his average was 38 to the Indians' 37. Another thing, Newman was high point man, having made three touchdowns.

Captain Ward did not get to be in this game, due to a slight injury, but his place was well filled by Haley. And on an end run for Montezuma Haley made a pretty tackle by blocking two men and then snatching the runner off his feet.

Clark, O'Donald, and McInnis were the back field players after Gerald, Powell, and Jones were removed. Clark proved to be an able pass snatcher, having nabbed one for a touchdown, and for several gains. He was good on intercepting Montezuma's passes, having caught more than the Indians themselves.

Barrett also played a part in the backfield and made good gains. He was slightly hurt when tackled out of bounds and his head hit the concrete boundary line.

The Buffaloes have one more game this season and it will be the hardest of all. It is the last conference game and it tells of the chance for the T. I. A. A. A victory and perhaps there is a chance. But a defeat and all is over.

Summary of the game: On 81 plays the Buffaloes made 459 yard gainage, (including passes) lost 26.

The Buffaloes punted six times for an average of 38 yards. Attempted 7 passes, four were complete for 77 yards, and one a touchdown—three were incomplete.

Bufs were penalized three times for 11 yards. Fumbled one time and lost the ball. Made 23 first downs.

Montezuma gained 117 yards on 37 plays, lost 12. Punted 7 times for an average of 37 yards.

Attempted 16 passes—four were

## Malin Says Bufs Are Doped To Be T. I. A. A. Champs.

Jerry Malin, sport editor of the Amarillo Daily News, sport columnist and graduate of this college, has a word to say in a recent issue of the News concerning the conference championship in the T. I. A. A.

Here is the word:

Prexy Anderson, well known in Amarillo by now as the chief sporting writer in Abilene, insinuates that this columnist should study his fourth grade arithmetic over. He lets us know that we didn't know what we were talking about when we said that the Canyon Buffaloes had just as good an outside chance to win the T. I. A. A. championship as the McMurtry Indians.

The situation is this: McMurtry plays five conference games, while West Texas plays but four. All right, naturally in arriving at our previous statement that Canyon had as good a chance at the title as does McMurtry, we considered the fact that the Indians and the Buffaloes play on Thanksgiving. Using the same arithmetic book that Prexy used, we find that if Canyon beats the Abilene school (which must be done, at least in our own minds, if they are to have a chance at the flag, the final standing of the two schools will be:

	Won	Lost	Pct.
McMurtry	3	2	.600
Canyon	3	1	.750

See how simple it is, Prexy?

complete for 36 yards—six were intercepted—six were incomplete.

Fumbled 3 times and lost the ball each time. They made six first downs.

Officials: Referee—Rumph (Texas). Umpire, Cartwright (Texas). Head linesman, Slough (Univ. of Oklahoma).

Most folks appreciate an ounce of sympathy more than a pound of truth.

## Hose or Lead Pipe Risky Gas Connections

Flexible connections for gas stoves are dangerous. They are likely at any time to become leaky or disconnected, with the danger of resultant injury to health and property.

This is true not only of rubber hose, but also of lead or copper-coated pipe, which, bent a time or two, may crack and leak. There is this additional objection to lead or copper-coated pipe: the aperture in the usual lead pipe connection is only one-eighth inch in diameter. A bend reduces even this small diameter. The result is that an insufficient amount of gas reaches the burners. A three-eighth-inch iron pipe connection is the safest and most efficient for the ordinary room heater.

Natural gas, when properly used, not only is the cleanest, most convenient and efficient of fuels, but it is also one of the safest and most economical.

If you are in doubt regarding the safety or efficiency of your gas equipment, call our Service Department. It is maintained for the free use of our customers.

## Wayside Items

Such delightful weather after the cold winter spell we have had. No ice for some days. We hope the pleasant spell holds until the farmers catch up with their work. Some wheat yet to sow and some feed to be saved. Farm work has been much hindered by bad weather.

Ladies Home Demonstration Club met Monday afternoon with Mrs. Susie McGehee. Good crowd present. Mrs. Amanda Adams presiding with Mrs. Amos Cunningham leading. Subject "Women of the

Bible," an interesting lesson. After business session delicious refreshments were served with social hour was enjoyed by all attending.

Waysiders were glad to have so many oldtimers out the past Sunday from Canyon. Mr. and Mrs. McCrerey, their daughters Osce Ruth, Aline McGehee and Nina Cunningham. All returned to Canyon Sunday afternoon.

Homer Rogers, Wife and little daughter, Neta Faye from Sweetwater visited the parental W. H. Rogers home a week ago. Mr. Rogers enjoyed a duck hunt while here.

B. F. Wilhelm and wife moved

to Amarillo the past week. They will be greatly missed, especially in S. S. and church work. He was a good leader, she was just as fine in her line, song leader. The good wishes of all follow them in their new home.

Miss Phillips met the 5-h Club girls at the W. H. Hamblen home Monday, spending a while with the Ladies Club, advising among other things, concerning the new year book.

## WHY

We are closing out our men's clothing department. The 700 block on Polk St. is a 100% Ladies' Block. The Leader, Inc. having decided to permanently discontinue their MEN'S CLOTHING DEPT. to enlarge other Dept. where the turnover is proving more rapid and also devote a part of the space now occupied by the men's clothing to their NEW THRIFT DEPT., have placed their entire Men's Stock on the Slaughter Block to quickly make an absolutely CLEAN SWEEP of this Dept.

During this sale of fine winter Suits and Over Coats, all men's furnishings, shoes and all men's wear will bear a special and extraordinary Cash and Carry price. Thru our Superior Buying Organization and our many years in the Wholesale Jobbing business, we know Men's Merchandise. No reason on earth why the Leader's regular every day prices should not sell out the Men's Dept. in a reasonable length of time. BUT TIME, TIDE AND OPPORTUNITY WAIT FOR NO MAN. We can use this space to better advantage for other Dept's. deciding to take a quick loss, with DAUNTLESS COURAGE WE LAUNCH A COMPLETE CLOSE OUT OF THE MEN'S STORE.

The Leader takes this opportunity to publicly thank their many friends for the grand support given the Third Anniversary Sale. Such Public Acclaim deserves an encore. We will include the ladies', boys', girls' and children's departments making this a storewide PRE-HOLIDAY EVENT. OF such mighty magnitude 'twill start the early Christmas buying with a rush, giving our patrons the benefit of OUR IMMENSE STOCK AT REAL CLOSE-OUT PRICES.

Chief aids to longevity are good food, good habits and good brake linings.

### Wayside Items

Such delightful weather after the cold winter spell we have had. No ice for some days. We hope the pleasant spell holds until the farmers catch up with their work. Some wheat yet to sow and some feed to be saved. Farm work has been much hindered by bad weather.

Ladies Home Demonstration Club met Monday afternoon with Mrs. Susie McGehee. Good crowd present. Mrs. Amanda Adams presiding with Mrs. Amos Cunningham leading. Subject "Women of the

Bible," an interesting lesson. After business session delicious refreshments were served with social hour was enjoyed by all attending.

Waysiders were glad to have so many oldtimers out the past Sunday from Canyon. Mr. and Mrs. McCrerey, their daughters Osce Ruth, Aline McGehee and Nina Cunningham. All returned to Canyon Sunday afternoon.

Homer Rogers, wife and little daughter, Neta Faye from Sweetwater visited the parental W. H. Rogers home a week ago. Mr. Rogers enjoyed a duck hunt while here.

B. F. Wilhelm and wife moved

to Amarillo the past week. They will be greatly missed, especially in S. S. and church work. He was a good leader, she was just as fine in her line, song leader. The good wishes of all follow them in their new home.

Miss Phillips met the 5-h Club girls at the W. H. Hamblen home Monday, spending a while with the Ladies Club, advising among other things, concerning the new year book.

Miss Marie McKee and brother attended services at Wayside Sunday night.

Pie supper at school house is announced for next Friday night, Nov. 22. Everybody is invited.

Ladies Home Demonstration Club meets with Mrs. D. L. Adams first Monday in December for an all day meeting. Each member is requested to bring a dish of some food for dinner. This is the time for our annual drawing of tickets for our unknown club friends. part of the members have taken a great interest in this phase of the club.

Mr. and Mrs. Irving SoRelle and little sons left Wednesday for Dallas in response to a telegram informing them of the death of Mrs. SoRelle's brother.

Our teachers, Mr. and Mrs. Scott Laycock and Miss Cope attended the Park Board Association meeting in Amarillo last Saturday.

J. S. Sluder and father, W. J. Sluder made a business trip to Tulsa Wednesday.

Mrs. Lizzie Fairy is again in the Plainview hospital, owing to injuries received when their house burned Nov. 1. Day before she was able to be up some and felt like she would be able to get up in a week's time. A blood transfusion in last few days has been of some benefit, but she is in a critical and weakened condition. Three out of four places broken in hip had healed, the fourth was rebroken and her nose seriously injured.

## TRADES DAY SPECIALS

It is our earnest belief that the entire citizenship of Randall County should take part in Trades Day. To do so fosters an idea and plan designed for the enlargement and betterment of the community as a whole. Contrary to the belief of some, Canyon merchants actually lose money to induce you to come to Canyon on Trades Day. They dig down in their pockets to give you values and if you fail to patronize them, you are missing a real opportunity to save money. Town people should set an example by at least visiting the various business houses on Trades Day.

You will find a more cordial welcome and better values. Do yourself and Canyon justice by visiting your local merchants on Trades Day. Let's make Monday the largest yet. Your co-operation will do it.

## Free! For the Kids!

As a special inducement we will give away more than 500 Airplane Type Squawker Balloons Monday to all children accompanied by their parents who visit our place between 3 and 5 p. m.

## Here's How

BY E.W. HOWE  
"The Sage of Potato Hill"

ROCKEFELLER'S ABILITY  
WISE FOX.  
IMPUDENT CRITICISM.  
I have never believed in fortune teller, seer or prophet; the wise man is one able to profit by events after they happen.

John D. Rockefeller displayed ability not only in making money. When his stomach failed some years ago, he investigated the subject as he did an oil field, and made it function again to his advantage. The Rockefeller Foundation, his tribute to philanthropy, is as well managed as the Standard Oil Co. . . . Although the disposition is not to think better of him. Mr. Rockefeller was once regarded as the world's greatest sinner. If he could be judged justly by some unknown power, I believe his rating, from the cradle to the grave would be as high as that of any man that ever lived, all because of his enormous common sense; his knowledge that honesty is the best policy.

Intelligence is merely that cunning exhibited by a fox; knowledge of traps, dogs, men, poison, inherited and acquired from long experience.

A fox, celebrated as smartest of dumb brutes is never prejudiced or fanatical; he is able to use every particle of sense he has.

If a fox encounters suspicious tracks, he doesn't stop to argue that he is entitled to life, liberty and the pursuit of happiness, but makes off to safer territory. When a man encounters danger, he too frequently stops to argue about his rights, and the danger overtakes him. A fox knows no heaven except hen roosts where there are neither dogs nor men; every fox is his own doctor, preacher, and philosopher and never yet has

there been a fox urging foxes and men to make up, and love each other. Foxes have become famous because they use all the intelligence they have, a good habit most men lack.

Constructive criticism is often great impudence. Here are our best men in transportation, finance, manufacturing, farming, mechanics, navigation, engineering, merchandising, and in all the other legitimate activities of life. They have at least done so well that our country ranks first in all essential respects. But there come a lot of palpable second raters who declare that everything has been done wrong. The bulk of these constructive critics are much like barbers talking about the money problems of the world, or tennis players discussing the problems of transportation.

If a man harms himself in spite of repeated warnings easily understood, he is lacking in intelligence. I do not care how many powerful poems he may have written, or how many eloquent sermons he may have delivered; if he does not exercise ordinary practical sense and fairness in affairs most vital to him, he is not intelligent. Jean Jacques Rousseau is a famous man, but the man was not intelligent; his private life proves it. A man's private life is the real testing ground. Lazarus is also a famous name, but the man failed so utterly we hear of him only to teach us charity.

## HINTS FOR THE HOME

BY NANCY HART

Goodies for the school lunch—how important—but how difficult to think of in the early morning rush when every minute counts! Perhaps no other dainty appeals to children quite as much as does a fruited gelatin or a charlotte. Yet few mothers recall this when planning these desserts for family meals.

Keep on hand a supply of ice cream containers (they cost only a cent or two) so that next time you prepare a fruit loaf or a chocolate jelly, a Bavarian cream or charlotte, you may pour part of it into this safe container and set it aside for the school lunch the following day.

And make it a surprise—never even hinted until the box is opened. At best the cold lunch leaves much to be desired, when appetites are finicky. It is surprising to see how much these little "extras" do to keep children satisfied.

**For the Meatless Meal**  
Cream of celery soup  
Cheese souffle French fried potatoes  
Tomato and Ochre  
Salad of chopped beets and egg  
Boston cream pie  
Coffee

**Egg Plant with Lamb**

Peel and slice egg plant, place a layer of it in bottom of buttered baking dish; add a layer of chopped mutton or lamb fried in its own fat; repeat until dish is almost filled. Add on top a layer of sliced tomatoes, dots of butter, seasoning and cracker crumbs. Bake until well browned.

**Potato Cakes**

Mix left over mashed potato with an egg, well beaten, a tsp. chopped parsley, two tbs. grated cheese, pepper and a little onion juice. Form into cakes and fry in butter.

**Cauliflower with Tomato Sauce**

Put the cauliflower in boiling salted water and cook until tender; drain, pull florets apart and lay in buttered baking dish, pour over them a cup of tomato sauce; sprinkle top with buttered crumbs and bake until the crumbs are browned.

**Cottage Cheese Pie**

Mix 1 cup cottage cheese, & cup sugar, 1-3 cup honey, 2 beaten egg yolks, 2 tbs. melted butter, ½ tsp. flavoring, 2-3 cup milk. Pour into one crust, dust lightly with cinnamon and bake until custard is set and crust lightly browned. Serve with meringue, if desired.

**Handy Salad Moulds**

Use muffin pans to mould the salad; they make the right individual portions, and save space in the ice box, too.

## RELIEF that is REFRESHING

"We have used Theodora's Black-Draught for years in our family. I can highly recommend it for many ailments. We take it for colds and for constipation."

"I have four children, and I give it to them. When my little girl gets bilious, or complains of headache, I give her a treatment of Black-Draught, and she is all right in a day or two."

"Sometimes when I have indigestion from improper eating, I have headache. Then I take Black-Draught. I always feel fresh and have more energy after I have taken it."—Mrs. E. Reich, 2215 East First Street, Austin, Texas.

## TRADES DAY SPECIALS

It is our earnest belief that the entire citizenship of Randall County should take part in Trades Day. To do so fosters an idea and plan designed for the enlargement and betterment of the community as a whole. Contrary to the belief of some, Canyon merchants actually lose money to induce you to come to Canyon on Trades Day. They dig down in their pockets to give you values and if you fail to patronize them, you are missing a real opportunity to save money. Town people should set an example by at least visiting the various business houses on Trades Day.

You will find a more cordial welcome and better values. Do yourself and Canyon justice by visiting your local merchants on Trades Day. Let's make Monday the largest yet. Your co-operation will do it.

## Free! For the Kids!

As a special inducement we will give away more than 500 Airplane Type Squawker Balloons Monday to all children accompanied by their parents who visit our place between 3 and 5 p. m.

## Here's Howe

BY E. W. HOWE  
"The Sage of Potato Hill"

### ROCKEFELLER'S ABILITY WISE FOX.

IMPUDENT CRITICISM.  
I have never believed in fortune teller, seer or prophet; the wise man is one able to profit by events after they happen.

John D. Rockefeller displayed ability not only in making money. When his stomach failed some years ago, he investigated the subject as he did an oil field, and made it function again to his advantage. The Rockefeller Foundation, his tribute to philanthropy, is as well managed as the Standard Oil Co. . . . Although the disposition is not to think better of him, Mr. Rockefeller was once regarded as the world's greatest sinner. If he could be judged justly by some unknown power, I believe his rating, from the cradle to the grave would be as high as that of any man that ever lived, all because of his enormous common sense; his knowledge that honesty is the best policy.

Intelligence is merely that cunning exhibited by a fox; knowledge of traps, dogs, men, poison, inherited and acquired from long experience.

A fox, celebrated as smartest of dumb brutes is never prejudiced or fanatical; he is able to use every particle of sense he has.

If a fox encounters suspicious tracks, he doesn't stop to argue that he is entitled to life, liberty and the pursuit of happiness, but makes off to safer territory. When a man encounters danger, he too frequently stops to argue about his rights, and the danger overtakes him. A fox knows no heaven except hen roosts where there are neither dogs nor men; every fox is his own doctor, preacher, and philosopher and never yet has

there been a fox urging foxes and men to make up, and love each other. Foxes have become famous because they use all the intelligence they have, a good habit most men lack.

Constructive criticism is often great impudence. Here are our best men in transportation, finance, manufacturing, farming, mechanics, navigation, engineering, merchandising, and in all the other legitimate activities of life. They have at least done so well that our country ranks first in all essential respects. But there come a lot of palpable second raters who declare that everything has been done wrong. The bulk of these constructive critics are much like barbers talking about the money problems of the world, or tennis players discussing the problems of transportation.

If a man harms himself in spite of repeated warnings easily understood, he is lacking in intelligence. I do not care how many powerful poems he may have written, or how many eloquent sermons he may have delivered; if he does not exercise ordinary practical sense and fairness in affairs most vital to him, he is not intelligent. Jean Jacques Rousseau is a famous man, but the man was not intelligent; his private life proves it. A man's private life is the real testing ground. Lazarus is also a famous name, but the man failed so utterly we hear of him only to teach us charity.

### HINTS FOR THE HOME

BY NANCY HART

Goodies for the school lunch—how important—but how difficult to think of in the early morning rush when every minute counts! Perhaps no other dainty appeals to children quite as much as does a fruited gelatin or a charlotte. Yet few mothers recall this when planning these desserts for family meals.

Keep on hand a supply of ice cream containers (they cost only a cent or two) so that next time you prepare a fruit loaf or a chocolate jelly, a Bavarian cream or charlotte, you may pour part of it into this safe container and set it aside for the school lunch the following day.

And make it a surprise—never even hinted until the box is opened. At best the cold lunch leaves much to be desired, when appetites are finicky. It is surprising to see how much these little "extras" do to keep children satisfied.

**For the Meatless Meal**  
Cream of celery soup  
Cheese souffle French fried potatoes  
Tomato and Ochre  
Salad of chopped beets and egg  
Boston cream pie  
Coffee

**Egg Plant with Lamb**  
Peel and slice egg plant, place a layer of it in bottom of buttered baking dish; add a layer of chopped mutton or lamb fried in its own fat; repeat until dish is almost filled. Add on top a layer of sliced tomatoes, dots of butter, seasoning and cracker crumbs. Bake until well browned.

**Potato Cakes**  
Mix left over mashed potato with an egg, well beaten, a tsp. chopped parsley, two tbs. grated cheese, pepper and a little onion juice. Form into cakes and fry in butter.

**Cauliflower with Tomato Sauce**  
Put the cauliflower in boiling salted water and cook until tender; drain, pull florets apart and lay in buttered baking dish, pour over them a cup of tomato sauce; sprinkle top with buttered crumbs and bake until the crumbs are browned.

**Cottage Cheese Pie**  
Mix 1 cup cottage cheese, & cup sugar, 1-3 cup honey, 2 beaten egg yolks, 2 tbs. melted butter, ¼ tsp. flavoring, 2-3 cup milk. Pour into one crust, dust lightly with cinnamon and bake until custard is set and crust lightly browned. Serve with meringue, if desired.

**Handy Salad Moulds**  
Use muffin pans to mould the salad; they make the right individual portions, and save space in the ice box, too.

**W. M. S. NOTICE**  
All Circles of the W. M. S. will meet with Mrs. W. J. Hinkle next Tuesday. Circle No. 1 will have charge of the program.

### RELIEF that is REFRESHING

"We have used Theford's Black-Draught for years in our family. I can highly recommend it for many ailments. We take it for colds and for constipation."

"I have four children, and I give it to them. When my little girl gets bilious, or complains of headache, I give her a treatment of Black-Draught, and she is all right in a day or two. 'Sometimes when I have indigestion from improper eating, I have headache. Then I take Black-Draught. I always feel fresh and have more energy after I have taken it.' Mrs. E. Reich, 2215 East First Street, Austin, Texas."

**Black-Draught**
